Wireless Flammable gas detector GD-A01

Features:

- Zigbee device type: IAS Zone
- Match up with CIE alarm devices
- Compatible with Zigbee HA protocol
- Equipped router with temperature sensor for detecting the temperature
- Reliable operation, stable performance and low false alarm rate
- Patent design, compact size, light weight and elegant appearance
- Has drifting and automatic tracking compensation function
- Strong anti-interference ability and automatic sensitivity adjustment

Product parameter:

Communication mode	IEEE802.15.4(ZigBee)
Band width	2.4-2.4835 GHz
Working temperature	-10~65 ℃
Communication range	50 m
Status Display	LED
Working humidity	Max 95%RH
Siren Volume	>=85dB
Working Voltage	220V
Product Dimension	D92mm × H50mm
