Hidden Cameras

These everyday items have tiny cameras hidden in them. They are easy to use and easy to install. Use these hidden cameras to protect your property at your home, office, your children, and your pets to give you peace of mind. Many of them are very portable, easily moved from room to room or place to place. Any of the DVRs we carry (pg. 20) will work with these cameras. You get the cables, connectors and multi power supplies (pg. 26 & 27) you need too. All of them are hand-crafted in the USA. Our wireless cameras can transmit up to 1000 feet - over 3 times the distance of most wireless cameras on the market. Black and white cameras feature .003 Lux which allows best possible images in almost complete darkness. Camera requires some ambient light (night light, television).

ALARM CLOCK HIDDEN CAMERA - Sleep peacefully with the Alarm Clock hidden camera. A fully functional FM/AM radio alarm clock with large LED display. Includes a double alarm, easy-to-see alarm indicator, sleep button and alarm volume control. Full power back-up in case of electricity loss. Red tuning needle is fixed in place to prevent camera obstruction, but radio station can still be adjusted with tuning dial.

- Only wireless cameras include **free** 2.4 GHz receiver (a \$272.00 Value)
- Black & White Cameras feature .003 LUX which allows best possible images in almost complete darkness. Camera requires some ambient light (night light, TV)
- See page 13 for the self-contained, built-in DVR version.

Specifications: Functions in Low Light .1 LUX for recording in the dark, Color SONY CCD Camera, H.264 Wi-Fi IP - Remotely View Your Surveillance Video Online.

HC-DNVSM-WF • \$492.00 Smoke Detector Wi-Fi Hidden Camera

Hidden Cameras with Internal DVRs

AIR FRESHENER HIDDEN CAMERA - No one will ever be able to tell this air freshener conceals a hidden color camera and mini DVR with an SD card to record what the camera sees. The air freshener is powered by a 10 hour rechargeable battery pack, no wires or cords to plug in. The battery can be easily swapped out with a fully charged battery. Extra batteries sold separately (pg.27). The battery also has an on/off switch to save power consumption when camera is not in use. You'll be able to see everything happening in the room.

This hidden camera features motion-activated recording that starts as soon as motion is detected. With motion-activation, you won't have to fast forward through hours of uneventful recording. Also has Motion Detection Area Masking. For example, if you have a dog or cat and don't want it to set off the motion detector, you can mask the lower quarter of the field of vision so it does not detect motion.

You can view your recordings by using the included RCA cable to connect to your TV. You can insert the SD card into your computer for easy viewing. **FREE 8GB SD-CARD Included.**

Does NOT function as an air freshener.

Features: Motion activated and scheduled recording, Motion Detection Area Masking, Time and date stamp, Remote Control operation, MPEG4 file format, Composite video out Color Camera

DVR Specifications: System: NTSC, Storage Media: 8GB SD Card included, Frame Rate: 30 fps at 320x240 or 12 fps at 640x480, Codec: MPEG4-SP ASF

Camera Specifications: Image Sensor: 1/3" Sony CCD, Resolution: 420 Lines, Min. Illumination: .1 Lux (Color), Lens: 3.7mm Wide Angle, Power Required: 12V Battery and Charger Included

The **WATCH HIDDEN CAMERA** is a state-of-the-art complete surveillance system. This fully functional DVR wristwatch contains the latest in miniaturized video technology. Perfect for covert evidence collection, hidden investigations or surveillance assignments. When you are ready to view the video or recharge the built-in lithium battery, simply plug the watch into your computer's USB port. No additional software required to view video, Supports 98/98SE/2000/XP/VISTA/Win 7. The battery will last up to 2 hours on a single charge.

Features: Fully functional all-in-one body worn surveillance system with color camera & microphone, time & date stamp, NOT water resistant.

Specifications: Image sensor= 1/6" color CMOS, 300,000 pixels, Audio, View Angle: 50°, USB 2.0, Built-in Flash 4 GB, Video File Size about 6-8 MB per minute (depending on audio), Recording Mode: Continuous recording, Photo formats= JPG, Photo resolution = 720 × 480 pixels, Video formats= AVI, Image resolution= 1280 × 960 pixels, Video Recording Speed= 15 fps, Battery Type= built-in Rechargeable Lithium-ion 4.2 V, Battery Capacity= 270 mAh, Working Current= 200 mA, Battery Support time= about 1 hour, Adaptor Type= USB adaptor charging cable, Charging time= 2-3 hours, Weight: 220g

HC-WATCH • \$51.00 Watch Hidden Camera with Built-in DVR & Audio

STICK HIDDEN CAMERA - This all-in-one video and audio recorder is perfect for capturing surveillance video and still shoots on the fly. HC-WALLC5-DVR • \$486.00 Wall Clock Hidden Camera with Built-in DVR

FLASH DRIVE COLOR CAMERA - This unique color camera can record 1280x960 resolution video for about 2 hours on its built in battery. Unlike most of our other body worn cameras, this USB flash drive camera will also record while plugged into a computer!

Just pop the drive into any computer and you won't have to worry about battery life! The USB drive camera can be used to record HD video on motion activation, take covert snapshots, or function as a regular flash drive. This product also features a date/time stamp to know exactly when events occurred. This camera features a silent notification by vibration alert when powered on/off, when

recording is started or stopped. Which makes this one of the most covert cameras on the market. Sometimes when you're trying to get video in a sensitive situation, it's really important to have the right hidden camera. A USB flash drive is something that's used every day by office workers, people at home, and really in any situation where computers are used. In other words, you can use it almost anywhere, anytime without arousing suspicion. Common uses include personal protection, evidence of workplace harassment, secret shopping, and undercover investigations.

Just load a micro SD card into the slot above the USB attachment and use the easy 3 button configuration to set the device to record. You can also set to record based on motion activation, and even have it plugged into a computer so you don't have to worry about battery life! To view your recorded video you have two options. You can simply plug the USB drive into your computer or take the micro SD card out and plug it into a card reader. Then just double click on the file you want to watch. It's that easy! This product includes a USB extension cable and instruction manual.

Camera Resolution: Color Camera, 720*480 Video (AVI), 1600*1200 Images (JPG), Battery lifespan: About 120 minutes, Battery Capacity: 300mAh, Charging Voltage: DC-5V, Battery Type: High Capacity, Polymer Lithium, 1.3-megapixel, Weight: 120g, Function: Photo/Video/Motion Detection Video, 4GB SD card

HC-FDCAM-DVR • \$36.00 Flash Drive Color Camera with Built-in DVR

CLOTHES HOOK HIDDEN COLOR CAMERA DVR - This Clothes Hook hidden camera DVR recorder has 720*480 resolution to enhance its recorder function. The exclusive design and the most advanced recording technology make it the most convenient recorder in the world. The hidden design lets you to put it in an office, home, or any room. The Motion-Activated Video Recording feature will record when movement is detected saving on hours of blank video. This motion activated hidden camera can be applied to almost any situation. The built-in lithium battery provides power for up to 2 hours on a single charge.

Specifications: Support 30 fps recording at 720*480 resolution, Support USB1.1, Support 16GB Micro SD card. (Maximum), Built-in lithium battery which can operate for up to 2 hours, Motion activated recording

Package include: 1 x Clothes Hook camera, 1 x USB cable, 2 x Double sided tape for mounting, 2 x Screws for mounting bracket, 1 x 8GB Micro SD card

HC-HOOK-DVR • \$47.00 Clothes Hook Hidden Color Camera with Built-in DVR

EARPIECE CAMERA DVR - Our latest hidden camera blends in perfectly with today's on the go technology. Looking just like a bluetooth earpiece that you see everyone using these days, no one will know that you're discreetly taking color video recordings of everything! This unit is simple to use yet features several recording modes to perfectly suit your needs.

Specifications: Video resolution: 640 x 480, Still image resolution: 1280 x 1024, Battery type: Internal rechargeable li-ion, Storage: Internal 4GB, Video Format: AVI, Support System: Windows98/ME/2000/XP/2003/Vista; Linux, Battery lifespan: 1 hour, Charging Voltage: DC-5V, Battery Type: High Capacity Polymer Lithium, 1.3-megapixel

Features: Records color video and audio, Can record audio only, Capable of taking still images, Looks just like a Bluetooth earpiece.

HC-EARCM-DVR • \$63.00 Earpiece Color Camera with Built-in DVR

The **PIR MOTION DETECTOR HIDDEN CAMERA** with built-in DVR is the best on the market. It doesn't just look like an alarm system's motion detector but functions as one too! It has an alarm output so you can connect it right to your alarm system, and use it as an alarm sensor as well as a hidden camera. Furthermore, its motion detector activates the camera too; recording only when something passes, sparing you from watching hours of uneventful footage. Footage records directly to an 8 GB SD card (included).

Specifications: Lens 1/3 SONY Color CCD Camera, Picture Elements: EIA/NTSC: 512 × 492, Resolution: 420 TV Lines, Minimum Illumination: 0.1 Lux, Function: Alarm Output, Lens: 3.7 mm Pinhole Lens, 640 × 480 video recording, Capture hidden camera video footage in extreme low light situations, 420 v1 0.1 lux super high quality SONY CCD image sensor, Supports up to 32 GB SD (max)

Includes: Motion Detector with DVR, Remote control, 12V power adaptor, User Manual, Bracket and Screws, Batteries for Remote Control, 8 GB SD Card

HC-PIRMD-DVR • \$393.00 PIR Motion Detector Hidden Color Camera with Built-in DVR

MIRROR HIDDEN CAMERA DVR - No one will ever be able to detect this color hidden camera disguised as an ordinary looking mirror. This mirror camera comes with a 12V battery and charger so no external wires are needed to record. The battery life for this system is up to 10 hours. The battery can be easily swapped out with a fully charged battery. Extra batteries sold separately (pg.27). The battery also has an on/off switch to save power consumption when camera is not in use.

This hidden camera comes in a natural wood finish frame or a black frame, it features motion-activated recording that starts as soon as motion is detected. With motion-activation, you won't have to fast forward through hours of uneventful footage. Also has Detection Area Masking; which means if you have a dog and don't want it to set off the motion detector, you can mask the lower quarter of the field of vision so its presence doesn't set it off.

You can view your recordings by using the included RCA cable to connect to your TV or computer or insert the SD card into your computer. **FREE 8GB SD-CARD Included.**

Color Camera Specifications: Image Sensor: 1/3" CCD, Resolution: 420 Lines, Min. Illumination: .1 Lux, Lens: 3.7mm Wide Angle, 92° FOV, Power Required: 12V battery and charger included

Features: Motion activated and scheduled recording, Motion Detection Area Masking, Time and date stamp, Remote Control operation, MPEG4 file format, Composite video out

HC-MIRRO-DVR • \$536.00 Wood Frame Mirror Hidden Camera with Built-in DVR
HC-MIRBK-DVR • \$536.00 Black Frame Mirror Hidden Camera with Built-in DVR

SMOKE DETECTOR DVR HIDDEN CAMERA - Every house, apartment and business should have a smoke detector (or two). The Hidden Camera Smoke Detector/DVR Combination is a perfect solution for covert video surveillance. No wires to run, or tricky transmitters to deal with; just high-quality all-inclusive recording. Monitor cash registers, record office personnel, or monitor who comes and goes through the door. Mounts on ceilings or walls in minutes and can be moved to different locations quickly and easily. *See page 7 for the Wi-Fi Hidden Camera*

Features: Fully Functional Smoke Detector, High Quality Color 1/3" SONY CCD Camera, SD Card Memory Support 8 GB SD card included (supports up to 32 GB SD card), Remote Control for "one touch" operation, Motion Activation, No Additional Software Required, Video Resolution: 520 TV Lines, Minimal Illumination: 0.1 LUX (Low Light), Power Supply: DC 12V, Requires AC Connection - Adapter Included

Includes: Smoke Detector, User Manual, 8 GB SD Card, Remote Control, 2 AAA batteries, RCA Cable for testing.

HC-DNVSM-DVR • \$472.00 Smoke Detector Hidden Camera with Built-in DVR

These weatherproof LED **SPOT LIGHT COLOR HIDDEN CAMERAS** have built-in DVRs and are perfect for outdoor applications. They use a 2.0 mega pixel color digital camera to capture time and date stamped video when motion is detected. When motion is detected at night the powerful 80 LED spotlight automatically turns on. Holds an 8 GB micro SD Card (included) holding ~5 hours of video footage. The spot light camera comes in both large and small sizes.

Features: Motion Activated Camera/Security light, Auto Lighting and motion detection, Auto overwrite when the memory is full, 24 hour Standby.

Specifications: Image sensor= 2.0 mega pixel color, Memory= Support Max 32 GB SD Card, Digital Video Capture - 640 × 480 pixel, View Angle = 120°, USB 2.0 and USB 1.1 compatible, Detection= PIR Auto-detection-Auto light on, Recording Mode 10 second AVI video capture, Video Record Speed= 15 fps, AVI, Image resolution 640 × 480 pixels, DC 5 V/1A, View range 90 feet for HC-SPLLG-DVR and View range 80 feet for HC-SPLSM-DVR, Dimensions= 6.9" × 5.1" × 4.7" for HC-SPLLG-DVR and 6.9" × 4.9" × 3.25" for HC-SPLSM-DVR

HC-SPLSM-DVR • \$186.00 Small Spot Light Hidden Camera with Built-in DVR

MINI DIGITAL COLOR ALARM CLOCK DVR - The Mini Digital Alarm Clock DVR is the ultimate hidden camera digital video recorder! Hide this amazing camera in plain sight since it's cleverly disguised as a fully functional alarm clock. This hidden camera is perfect for secret video surveillance like keeping an eye on your home, checking up on employees or your kids. It has a variety of recording options including video and audio, audio only, still photo, motion detector and works as a web cam!

The 2200mA lithium battery is capable of recording for up to 12 hours on a single charge. With the included 4GB micro SD card this camera can store up to 2 hours of constant recording. In motion detection mode the recording is only active when movement takes place saving battery and storage space. This Alarm Clock DVR captures video at an impressive 640 x 480 resolution at 30 FPS in AVI format. Still pictures are captured at 1280 x 960 resolution in JPEG format. Simply connect the clock to your computer with the included USB cable to upload your videos and photos. **FREE 4GB SD-CARD Included.**

Specifications: Color Camera Resolution: Video: 640*480, Picture: 1280*960, Pixel: 2.0 mega pixel, Video Format: AVI, Frame rate: 30FPS, Viewing Angle: 72°, Induction Photographing: 6 meters for straight-line distance, Minimum Illumination: 1LUX, Battery lifespan: 12 hours, Battery Capacity: 2200MA, Battery Charge Time: up to 4 hours, Power Consumption: 130MA / 3.7V, Remote IR Distance: 15m, Scope for sound recording: 40m2, Storage Temperature: -20~80°C, Working Temperature: -10~60°C, Working Humidity: 15~85% RH, Type of Memory Card: Mini SD card, Capacity of Memory Card: 32GB Max, USB Interface: USB1.1/2.0

HC-ALCLK-DVR • \$56.00 Mini Digital Color Alarm Clock with Built-in DVR

INFRARED LED FLASHLIGHT HIDDEN SPY CAMERA - This is an Infrared Led Flashlight Hidden Spy Camera. It is the perfect tool for those who want to see what secret things are going on in the dark. This item is great for security guards, police, hunters, and anyone with low light recording needs. The camera lens is located in the center of the Flashlight. It has a unique design, very easy to use, and is multi-functional. The 8 GB Micro SD Card ensures long time recording. The Infrared LED flashlight is small and compact so it can be concealed easily as well. Dimensions= 4" long 1" wide. **FREE 8GB SD-CARD Included.**

Features: Audio and video synchronized recording, Built-in 2.0 Mega pixels high definition digital camera, Video resolution= 1280 × 960, AVI format, Built-in Li-battery (800 mAh), Storage= micro SD card up to 32 GB, Image Sensor= 1/4 CMOS, View Angle= 70°, Video Resolution= 1280 × 960 pixels, Photo Resolution= 1600 × 1200 pixels, Recording Frame= 30 fps, Video working time= about 5 hours, LED /Video synchronal working time= about 3 hours, Charging time= 3 hours, working current: 30 mA

Includes: IR LED Flashlight DVR, USB Cable, CD, User Manual, 8 GB Micro SD Card

We have a huge selection of surveillance equipment to choose from. But, if you ever need something we don't stock or have a special request, just ask. We will do our best to get you what you need.

Frequently Asked Questions

WHAT IS A WIRELESS SECURITY CAMERA? Most security cameras require two wires: one for power, and one to transmit the captured video to a display or recording device (TV or DVR, for example). Wireless cameras only require one wire - for power. The video is transmitted wirelessly via transmitter and receiver devices. A wireless camera is really a combination of the camera plus a built-in wireless transmitter to send the video, and a receiver to receive the video, which in turn plugs into the monitor or recorder.

FOR WHAT APPLICATIONS SHOULD I CONSIDER IP? IP cameras should be considered for large installation sites that already have a high bandwidth network installed - especially if the cameras will be spread out over a wide area. For example; Hospitals, Schools, etc.

WHAT FEATURES SHOULD I LOOK FOR IN A CCTV DIGITAL VIDEO RECORDER (DVR)? All DVRs are definitely not made equal! There are several factors that are critical to consider when purchasing a DVR, especially when comparing price. The most important features to look at are the number of cameras supported, frames per second (fps), compression technology, hard drive space, network connection / remote viewing capability, motion detection, scheduling, and ability to save video and audio to a CD or flash drive.

USING RG59 CABLE VS. PLUG AND PLAY CABLE? There are two basic approaches to hooking up security cameras and digital video recorders (DVRs). You can use Plug and Play cable or you can use RG59 Siamese cable. Both cable types combine a cable for the video and a cable for the power. The advantage of plug and play cable is that it is very easy to use. The connectors for power, video and audio are all pre-attached. All you have to decide is what length you need (we offer 25, 50, 100, and 150 ft. models). This cable type is a good choice for homeowners who don't need a cable run longer than 150 ft. The RG59 Siamese cable is more heavily shielded so it's more durable and can be run longer distances (up to 1000 ft without a repeater). Its heavier shielding makes it less susceptible to interference. Florescent lighting in particular can interfere with camera signals. The RG59 is purchased in 500 or 1000 ft. rolls and each camera run is cut to the exact length needed. Since you need to cut the cable and attach the connectors, it is a little more involved to install.

WHICH TYPE OF SECURITY CAMERA SHOULD I USE? A security camera can come in many different styles including dome, bullet, infrared and Hidden. The security camera that will work best for your application will depend on several factors such as whether you will use the security cameras inside or out, during the day, night time, or both.

Bullet style security cameras are the most popular. They can be used inside or out. These security cameras come in black and white or color and come with all of the required mounting hardware. The security cameras casings are weather resistant and don't require added external protection. Most security cameras have a fixed 4 mm lens that allows you to see facial features out to about 35 feet and provides a 70° angle of view. Resolution levels for black and white security cameras are about 400 lines, any higher and the benefits are minimal. For color cameras, the higher the resolution the better.

Infrared security cameras are also very popular as they allow an image to be seen in little or no lighting conditions. Most infrared security cameras are bullet style and can be used inside or out. The cameras have infrared lighting installed around the outer edge of the lens which allows the security camera to see in no light 25 ft or more depending on the camera model - even further with a little bit of light (like street lighting or an outside light.)

Dome security cameras basically provide a different look. Also, if you have any concerns about tampering, check out our Infrared Armor Dome Security Camera. It will withstand a 10 lb sledgehammer blow and can be used inside or out, daytime or night time. Hidden cameras are very popular and can be hidden in almost any item. These cameras allow you to have the ability to capture video without anyone knowing. Most hidden cameras cannot be used outside and will need to be used indoors.

CAN I GET AUDIO IN MY HIDDEN CAMERA? No you cannot. According to United States federal laws, audio should not be used in a surreptitious manner. One example of surreptitious interception is audio in a hidden camera. This includes pinhole board cameras and all covert or hidden cameras. Audio in a hidden camera or board camera is only available to law enforcement agencies, with the exception of body worn cameras. Title 18, Section 2512.

WHAT IS A WIRED SECURITY CAMERA? Wired cameras have a video cable that runs from the camera to your recording or viewing device such as a DVR or monitor. Wireless cameras have a built-in transmitter that sends the video signal to a receiver. The receiver connects to your recording or viewing device.

HOW MANY WIRELESS CAMERAS CAN YOU HAVE IN ONE LOCATION? The new digital wireless transmitters will support up to 8 wireless cameras in a location.

WILL A CORDLESS PHONE INTERFERE WITH WIRELESS CAMERAS? A cordless phone or wireless router will not interfere with the wireless signal from the wireless cameras.

HOW FAR CAN A WIRELESS HIDDEN CAMERA TRANSMIT? The wireless cameras can transmit up to 1000 feet line of sight.

DO THE RECEIVERS WORK THROUGH WALLS UP TO TWO FEET THICK? Yes, as long as there isn't too much metal in the wall.

HOW MANY HOURS WILL A DVR RECORD? The amount of time a DVR will record is based on the size of the hard drive, the number of cameras recording and the frames per second. A 4 camera stand alone DVR with a 500GB hard drive will record for 5 days of constant recording and around 2 weeks of motion recording. A 8 camera stand alone DVR with a 500GB hard drive will record for 2.5 days of constant recording and around 1 week of motion recording. A 16 camera stand alone DVR with a 1TB hard drive will record for 2.5 days of constant recording and around 1 week of motion recording.

WHAT IS A PLUG AND PLAY CONNECTION CAMERA? It is a RCA or BNC video plug and a power plug on the camera for easy connection to DVR or TV. This is done by running the RCA/BNC (Aux) line into the VIDEO IN of the DVR or TV.

DO THE PLUG AND PLAY CONNECTIONS REQUIRE EXTRA WIRE TO RUN THE SIGNAL BACK TO THE DVR OR TV? Yes, you need to buy the length of cable you need. We offer the CA-25, CA-50, CA-100 and CA-150.

WHAT IS A VARIFOCAL LENS? A varifocal lens is one where the focal length of the lens can be varied. This is a fancy way of saying it is a zoom lens. Most varifocal lenses have, and in almost all circumstances should have, an auto iris feature.

WHAT IS A FIXED LENS? A fixed focal length lens cannot zoom. The focus is fixed. A fixed focal length lens usually allows more light to pass through the lens at a given focal length than a varifocal, or zoom lens. This can be important in low light situations.

Surveillance Definitions

RESOLUTION - Refers to how much detail can be captured on a camera or displayed on a monitor. Cameras typically capture about 380 horizontal lines of resolution. High resolution cameras may capture 450 lines of resolution or more. The higher the resolution, the more detail that can be captured in a picture. The monitors and recording devices can generally handle at least as much resolution as the cameras can capture.

IR - Infrared - IR LEDs are used on Day/Night cameras which allow the camera to see in the dark.

LUX - The measurement of low light needed for the camera to view and record properly.

FPS - Frames Per Second - the number of still frames (pictures) that give the illusion of motion, which appear in a single second. 30 fps is considered "real time". You need at least 30 fps for each camera for real time viewing or recording with your cameras.

NTSC - National Television Standards Committee; the analog video representation standard used in the US and South America. Compared to PAL.

PAL - Phase Alternating Line - the analog video representation standard used in Australia, and most of Europe and Asia. Compared to NTSC.

MOTION DETECTION - Refers to the feature in some VCRs and DVRs to only record video if something in the image moves or changes. Therefore you don't have to look through hours of taped video looking for something to happen. It also saves a lot of space on the tape or hard drive.

CODEC - A term referring to any technology used to compress and decompress large files such as audio and video files for efficient data transfer.

H.264 COMPRESSION - The latest MPEG4 compression technology, released in 2003. H.264 provides excellent video compression. You get the same quality image as MPEG4 even at the higher resolutions like full screen D1.

DIGITAL VIDEO RECORDER (DVR) - A digital video recorder is basically a computer that converts the incoming (analog) signal from the cameras to digital, and compresses it, and stores it. The DVR replaces the function of a multiplexor (or quad or switcher) and a security VCR. There are many advantages of digital video recorders over their analog counterparts.

Multi-Channel DVR Systems

Whether you have a large or small area to secure, one of our DVR systems will work for you. Not only will this system digitally record video, but if you have Internet access you can see what is going on in real-time from anywhere in the world. Available in a wired or wireless version complete with cameras, a DVR and all necessary cables and components.

CS-DVR4CH • \$1,024.00

4 Channel Wired Surveillance System

4 CHANNEL WIRED DIGITAL VIDEO RECORDING COMPLETE SYSTEM - This surveillance system allows you to install up to 4 wired cameras to digitally record all activity. This DVR has full networking capability and uses an embedded DVR which allows you to view live video on the Internet or play back recorded video.

This complete surveillance system includes the following, *plus* mouse and remote:

- (1) Stand Alone 4 channel DVR (SA-DVR-4, pg 20)
- (4) Day/Night Color Wired Cameras (BC-30WC-DN, pg 21)
- (4) 100 Ft Video Cables (CA-100, pg 26)
- (1) 19" Widescreen LCD Monitor (LCD-19, pg 27)

If you bought these items separately this system would cost you **\$1,183.00** But by purchasing the complete system you only pay **\$1,024.00** - a savings of **\$159.00** *If you would like to create your own system start with our 4 CH DVR and 19" monitor then choose your cameras and cables.*

24 DAY/NIGHT INFRARED ILLUMINATORS BULLET CAMERA DVR SYSTEM

This high resolution fully weatherproof system lets you mount virtually anywhere indoors or outdoors. The built in DVR and rechargeable Li-ion batteries let you record without the need for external power or recording device. The battery life for this system is up to 12 hours and with motion activation you will not need to look through hours of video. This unit takes two batteries one to power the DVR and one to power the camera. The batteries can easily be swapped out with fully charged batteries. Extra batteries sold separately (pg.27). The batteries also have on/off switches to save power consumption when the camera and DVR are not in use. This system can be used to monitor remote locations like, Garden/Backyard, Constructions Sites, Club houses, Boats/RV's, Camp sites, or as a Hunting/Trail cam. This camera system can be mounted to just about anything and has an adjustable camera bracket.

This color bullet camera has a high quality digital CCD chip that automatically switches from color to black & white in low light conditions. To enhance low light visibility it has 24 built-in high infrared illuminators for a range of 60 feet. With 600TVL of resolution this camera and DVR captures the highest quality footage.

Features: Weatherproof IR Camera and DVR, SHARP 600TVL, 24 pcs IR-LED, IR Range 60 feet, Built-in 3.6 mm Board Lens @ 92° Field of View, Motion activated and scheduled recording, Motion Detection Area Masking, Time and date stamp, Remote Control operation, MPEG4 file format, Composite video out

Camera Specifications: Image Device: 1/3 SHARP, Resolution: 600 TVL, Picture Elements: PAL: 752(H) × 582(V); NTSC: 768(H) × 494(V), Min. Illumination: 0.2 Lux /F2.0, TV System: PAL/NTSC, Lens Furnished: 3.6 mm Board Lens, Infrared Luminary: 24 pieces 5 mm IR-LED, Illuminate

Distance: 60 feet, Wavelength: 850 nm, Waterproofing Criterion: IP 66, Operation Temperature: -10°C ~ +50°C RH95% Max, Dimension: 9 ½ x 7 ½ x 8 inches as pictured

DVR Specifications: System: NTSC/PAL, Storage Media: 8GB SD Card Included (Supports up to 32GB SD cards), Frame Rate: 30 fps at 320x240 or 12 fps at 640x480, Codec: MPEG4-SP ASF, Power required: 12V battery and charger included

56 INFRARED ILLUMINATORS BULLET CAMERA DVR SYSTEM

- This high resolution fully weatherproof system lets you mount virtually anywhere indoors or outdoors. The built in DVR and rechargeable Li-ion batteries let you record without the need for external power or recording device. The battery life for this system is up to 12 hours and with motion activation so you will not need to look through hours of video. This unit takes two batteries one to power the DVR and one to power the camera. The batteries can easily be swapped out with fully charged batteries. Extra batteries sold separately (pg.27). The batteries also have on/off switches to save power consumption when the camera and DVR are not in use. This system can be used to monitor remote locations like, Garden/Backyard, Constructions Sites, Club houses, Boats/RV's, Camp sites, or as a Hunting/Trail cam. This camera system can be mounted to just about anything and has an adjustable camera bracket.

The color bullet camera has a high quality digital CCD chip that automatically switches from color to black & white in low light conditions. To enhance low light visibility it has 56 built-in high infrared illuminators for a range of 150 feet. With 540TVL of resolution this camera and DVR captures the highest quality footage. It has a Varifocal 4-9mm lens that will provide a field of view from 70°-35°. With this you can zoom in closer to the area under surveillance.

Features: Weatherproof IR Camera and DVR, Sony 540TVL, 56 pcs IR-LED, IR Range 150feet, Varifocal 4-9mm Board Lens, Motion activated and scheduled recording, Motion Detection Area Masking, Time and date stamp, Remote Control operation, MPEG4 file format, Composite video out

Specifications: Image Sensor: 1/3" Sony, Resolution: 540 TV Lines, Min. Illumination: 0.0 Lux (Infrared On), Lens: 4-9mm Wide Lens (can be adjusted from back panel), Dimension: 14 x 8 ½ x 8 inches as pictured

DVR Specifications: System: NTSC/PAL, Storage Media: 8GB SD Card Included (Supports up to 32GB SD cards), Frame Rate: 30 fps at 320x240 or 12 fps at 640x480, Codec: MPEG4-SP ASF, Power required: 12V battery and charger included

BC-61-DVR • \$582.00 Day/Night Bullet Camera DVR System **19**

Stand-Alone DVRs

These Stand-Alone Embedded Hard-Drives are fully self-contained with all of the necessary software already installed. A Digital Video Recorder (DVR) operates like a VCR yet it's easier to use and offers more options. The DVR converts analog video (NTSC or PAL) to digital data, and records it on a hard drive. Using a hard drive allows users to access recorded video instantly without having to rewind or fast forward video tape. Easily freeze-frame, fast forward or rewind without image streaking, tearing, or adjusting tracking. Digital video can be indexed by time/date or events, allowing users to easily search or reference past events. Access the features using either the front panel or from any computer. The rear panel has video and audio input/output.

4 CHANNEL EMBEDDED DVR - Features: H.264 Video Compression and Network Streaming, Multi-Lingual, USB Backup, Remote setup, monitoring, backup, alarm notification, remote software upgrade, multiple DVR consolidation, system configuration, support Windows 7, Vista, XP, and 2000, Internet Explorer/Firefox/Chrome/Safari: Remote monitoring, Programmable HTTP / Control / Data port, Mac OS supported for remote viewing. This system also works with smart phones including: iPhone, Blackberry, and Android.

All DVR functions controllable through remote access, 4 record quality settings, a Manual/scheduled/motion detection recording, Video Motion Detection, Video Loss Detection, 2 year warranty

Specifications: Video Format = H.264, Video Input = 4 CH composite BNC, Video Output = VGA & Composite BNC, Audio In = 1 CH RCA, Audio Out = 1 CH RCA, Storage= 500 GB HDD, Resolution = 720 × 480 (NTSC), 720 × 576 (PAL), Display Rate = Real Time 120 fps, LAN Connector = RJ45, Power= 12V, Dimensions = 8½" × 8" × 1½"

Includes: IR Remote Control, USB Mouse, 4 Channel Embedded DVR

SA-DVR-4 • \$508.00

8 CHANNEL EMBEDDED DVR - Features: Industrial durability shock resistance & stability, Records 8 channels simultaneously in high resolution (720×480), New H.264 compression (allows longer record time in same amount of space), Real time recording, USB backup, multi-lingual, live network playback capability, all DVR functions controllable through remote access, Easy to retrieve video, time and alarm information, easy to restore and power on in case of power failure, up to 8 wired cameras, 2 year warranty. This system also works with smart phones including: iPhone, Blackberry, and Android.

Specifications: Video input = 8 channel composite BNC, Video output = Composite BNC, VGA output, Audio input = 2 CH RCA, Audio output = 2 CH RCA, Alarm input = 8 CH, 3 Alarm outputs, LAN Connector = RJ45, PTZ Control = RS485, Real time 240 fps, Storage= 500 GB HDD, Power= 12V, Dimensions = 11" × 10" × 3"

Includes: IR remote control, USB Mouse, 8 Channel Embedded DVR

Dummy Cameras

Dummy cameras are non-functioning security cameras that are just as effective of a deterrent as real surveillance cameras. With a blinking red LED and fake power cords, they look just like real cameras. Although dummy cameras won't catch a criminal, studies have shown that just the presence of a camera can prevent crime.

The **DOME DUMMY CAMERA WITH FLASHING LED** looks just like the real thing. Real camera housing without the camera. Features a flashing LED and metal mounting bracket. Installs easily using stainless steel screws. This unit contains a flashing red LED light which draws extra attention to the camera, particularly at night.

Specifications: Base measures 3 7/8" across and the dome is 2 3/4" high. Operates on 2 AA batteries (not included).

DM-DOML • \$13.00
Dome Dummy Camera
w/Flashing LED

The **PROFESSIONAL DUMMY CAMERA WITH FLASHING LED** looks just like the real thing. Real camera housing without the real camera. Features a flashing LED, real video cable, weatherproof aluminum housing, and fully adjustable metal mounting bracket. Installs easily using stainless steel screws.

Specifications: Dimensions= 10" × 4" × 4" (bracket 10"). Operates on one C battery (not included) - Will operate for approximately six months on one battery.

DM-PROFlash • \$26.00
Professional Dummy Camera
w/ LED

The **PROFESSIONAL DUMMY CAMERA** looks just like the real thing. Real camera housing without the camera. Features a flashing LED, real video cable, weatherproof aluminum housing, and fully adjustable metal mounting bracket. Installs easily using stainless steel screws.

Specifications: 10 3/4" long (rain shield extends 2") × 4" round. Operates on 2 AA batteries (not included).

Specifications: Image Sensor = 1/3" CMOS, Resolution 400 Lines, Min. Illumination = 1 Lux (Color), Lens: 6 mm (Color), Current Consumption = 26 mA Max, Power Supply= 9 Volt. Dimensions= 3/4" x 3/4"

BD-127WC • \$44.00 Wired Color Camera with Plug & Play

HIGH RESOLUTION DAY/NIGHT COLOR CAMERA W/ WIDE ANGLE - 650 TV LINES

This is the highest resolution analog night vision security camera on the market. This features the newest, state of the art image signal processor called SONY EFFIO-E that allows for CCTV Video resolutions much higher than previous technology. This security camera has a resolution of 650 TV Lines (TVL), which is 30% higher than normal CCTV Cameras.

It has 72 infrared LEDs for night vision for a minimum of 150ft in complete darkness and farther if there is other lighting around. The lens on this camera is manually adjustable. You can set it from 2.8mm to 12mm zoom length, meaning you can go set the camera to get a 130 degree wide angle view to cover a large area, or zoom in to 3X at a 28 degree angle of view to see objects farther away. On top of all these features, it also has Digital Noise Reduction (DNR). This is yet another feature that puts this camera above other cameras in the market. Most cameras on the market will display very grainy video during night time, with this camera featuring DNR; the noise is greatly reduced. This hi res security camera also has another trick - ATR (Adaptive Tone Reproduction) that improves visibility of the entire picture by adjusting contrast in specific areas that are too bright or too dim.

This camera also comes with an on screen display menu controlled by a small joystick located on the cord of the camera to navigate around the menu. This on screen display menu allows the user to adjust many camera settings and features. As for mounting this camera, it comes with a 3 axis bracket that lets you mount the camera on a wall, ceiling, or flat horizontal surface like the top of a roof. The bracket also allows the cable to run through the inside of the bracket, which protects your camera cable from being cut.

Features: Weatherproof IR Camera, SONY Exview HAD CCD II (ICX672/3AKA), 72 pcs C5mm IR-LED, IR Range 50M, OSD/2D-DNR/BLC/MD/Privacy Masking, 3-Axis Design, easy for installation, Built-in 2.8—12mm Manual Zoom Les

Specifications: Image Device: 1/3" Exview HAD CCD II, DSP Device: Effio-E, Resolution: Color Mode: 650TVL; B/W Mode: 700TVL, Picture Elements: PAL: 976(H) x 582(V) NTSC: 976(H) x 494(V), IR Led & IR Range: 72pcs C5 IR Led; 150 feet IR Distance, Min. Illumination: 0.001 Lux (F2.0)/ 0 Lux IR On, Lens Furnished: Built-in 2.8--12mm Manual Zoom Lens, TV System: PAL/NTSC, Electronic Shutter: NTSC: 1/60~1/100,000, PAL: 1/50~1/110,000, Gamma: 0.45, Exposure: Auto, Shutter/ AGC: Auto/Manual, White Balance: ATW / User1/User2, Backlight: OFF/ON/BLC/ HLC, Picture Adjust: Mirror/ Brightness/Contrast/Sharpness/Hue/Gain, ATR: ON/OFF, Motion Detection: OFF/ON (Detect sense/ Area Sel.), Privacy Masking: OFF/ON (4 Zone), Day/ Night: True Day and Night (Auto/ Day / Night / Ext. D&N), 2D-NR: OFF/ON (Y/C level), Camera ID: OFF/ON, Sync System: Internal, Waterproofing Criterion: IP 66, Video Output: 1 Vp-p / 75 Ohms, Power Supply: DC12V±10%, Operation Temperature: -10°C ~ +50°C RH95% Max, Dimension: Body: C83 x 159mm With Bracket: 230(L) x 86(W) x 83(H), Weight: 1600g

Bug Detectors - Phone Recorders & GPS

If you think that someone is listening to your conversations or is watching you with a hidden camera, a bug detector will help you find the hidden microphone or camera. Our bug detector acts as a sweeper. You can turn it on, walk through a room and find any hidden devices. If any frequencies are detected the bug detector will notify you. The frequency detector must be within one foot of a wireless device before it can determine the frequency. Both detectors have a strength meter which measures how close you are to the bug. When searching your home or office for bugs be sure to search everywhere. Bugs come in many shapes and sizes some being smaller than a penny.

FREQUENCY DETECTOR WITH STRENGTH METER

This detector has the latest technology in hand-held radio frequency detection. Built-in signal strength meter lets you know when your LCD screen displays actual frequency that is being detected. Full detection range from 1 MHz to 3 GHz. If you already know the location of the bug, this device is for you. It will tell you what frequency the bug is running on.

Specifications: Frequency Range = 1 MHz to 3 GHz, Battery = 5 × AA 600 M/AH NiCd, Battery Life = 6 Hours in use/500 stand-by, Ant. Impedance = 50 Ohms Frequency, Display=10 Digit Liquid Crystal, Silent Alert Mode = Yes, Beeper = Yes, Low Battery Indicator = Yes, Barograph = Ultra Sensitive 5 Sections, Telescopic High/Low Frequency Antenna, Dimensions = 3.3" × 2.7" × 1.2"

Includes: Detector, Charger, Telescopic High/Low Frequency Antenna

LENS FINDER BUG DETECTOR - The Wired or Wireless Camera Multifunctional Detector combines the latest laser frequency visual detection methods, as well as detecting the wide band radio frequency (RF) of wireless video and/or audio transmitters (bugs), in an easy to use hidden bug detector.

To operate the visual detection feature simply look through the specially focused viewing port, and any camera lenses within a 10 foot range will appear to flash red, giving away their location. For wireless detection, just slide the control switch to the RF mode and wave it around the room and objects like you were dusting them off. For different environments, modulate the sensitivity tuner for distance adjustment

Specifications: Requires 2 AAA Batteries, Comes with lens cleaning cloth, Dual strength indication, Sound and Vibrate/LED, Switchable Sound/Silent detection, RF Frequency Detection 1 Mhz - 6 Ghz Dimensions = 4" × 2" × ½"

AVD-110 • \$184.00 Frequency Detector with Strength Meter
