

-7-inch color intelligent extension station

Touch- Future -Perfect integration of technology and furnishing art

VTH15 Series is a full touch control indoor intelligent terminal. 7-inch color high definition screen presents you the colorful video. The touch panels with the control button realize the fluent operation. The comfortable life, the hear beats with the finger. It supports cable or wireless alarm function and can connect to the alarm detectors such as the gas leak detector, intruder detector, smoke detector and etc, which creates safe living environments for you. It can connect to the USB camera to realize the remote video talk and make there is no distance between you and me.

-Features

Displayer: Color 7-inch TFT LCD, resolution 800*480

Protocol: TCP/IP

OS: Embedded Linux

Video format: H.264

Extension port : 2 USB 2.0 ports

Network port: 1 10M/100Mbps self-adaptor Ethernet port

Dimensions: 220mm *153mm * 23mm (W*H*T)

Power: DC 10~15V

Power consumption: Standby≤1w, work≤7w

Video door phone

Realize the hand free video door phone with the public door station, unit door station

Send or receive the call from the management center device

Extension USB camera realize video door phone with other resident in the same community

Open unit door lock

Set disturbance free mode

Security function:

Visitor recognition and open the unit lock

Extend to connect to the eight cable alarm zones or eight wireless alarm zones

Storage 10 residents' video or message, 30 visitor video, 1000 visitor picture

Emergency button to call the management centre

Control function (Via wireless module):

Temperature control

Light and curtain control

Scene mode control

General management

Community bulletin

Message prompt

Elevator call
